

EXOS CloudConnector Application

***Attention: Install on
ExtremeManagement Server
only!***

This application enables ExtremeManagement to work with EXOS switches to provide a Zero Touch Provisioning Plus (ZTP+) experience when installing 'just out of the box' ExtremeSwitches running EXOS.

This firmware should be loaded to the ExtremeManagement server via the Network->Firmware page. Do not load Cloud Connector directly to the switch.

Let Extreme Management do that for you by marking it as the Reference Image on the Firmware page.

See the list of CloudConnector versions to match the EXOS version running on your ExtremeSwitching hardware.

EXOS CloudConnector v3.0.29.39 for use with Extreme Management Center 8.x

The EXOS CloudConnector v3.0.29.39 application is used together

with Extreme Management Center 8.x.

For Extreme Management Center 8.x, the firmware page is shown below:

Separate Cloud Connector versions are no longer necessary with EXOS CloudConnector v3.0.29.39. The EXOS CloudConnector v3.0.29.39 is compatible with all EXOS releases from EXOS 21.x and later.

- [summitX-cloud_connector-3.0.29.39.xmod](#)
- [onie-cloud_connector-3.0.29.39.xmod](#)

For a complete description of installation instructions and ExtremeManagement ZTP+ capabilities, see the ExtremeManagement 8.x documentation.

EXOS CloudConnector v1.1.14.35 for use with Extreme Management Center 7.x

The EXOS CloudConnector v1.1.14.35 application is used together with Extreme Management Center 7.x.

For Extreme Management Center 7.x, the firmware page is shown below:

Select CloudConnector the version(s) that match the EXOS release running on your ExtremeSwitching devices and install them on the Extreme Management server.

- [summitX-21.1-cloud_connector-1.1.14.35.xmod](#)
- [summitX-22.1-cloud_connector-1.1.14.35.xmod](#)
- [summitX-22.2-cloud_connector-1.1.14.35.xmod](#)

For a complete description of installation instructions and ExtremeManagement ZTP+ capabilities, see the ExtremeManagement 7.x documentation.
